AL(2)
clear statewide
AL(3), Boca
AL(1), GA(1), Raiford, Boca, Key West
TLH, Lakeland, Pompano
AL(1), GA(1), TLH, Dundee, SW Highland, Ft. Drum, La Belle, MIA, Key West

[90.615]: 30 new General Category channels are marked by 'GC [90.615]'. For 3 years following the Order they are available only to PS; from year 3 to 5 also to CII*. After year 5 they become available to all entities.

OLD INTERLEAVED BAND

NEW B/ILT & PUBLIC SAFETY & NON-CELLULAR SMR

PS[a] = new 90.615(a) Public Safety Category
PS = new 90.617(a) Table-1 Public Safety Category
B/ILT = new 90.617(b) Table-2 B/ILT Category
SMR = new 90.617(d) Table-4B SMR Category

Fanning Spgs, Moorehaven, Big Pine

Crestview, Fanning Spgs, Flamingo, Okeechobee C
Ft. Meade

[Table-2]: 30 new 'contingent' Public Safety channels are marked by [T-2]. For 3 years following the Order they are available only to PS; from year 3 to 5 also to CII*. After year 5 they become B/ILT channels.

[Table-4b]: 80 new 'contingent' Public Safety channels are marked by [T-4b]. For 3 years following the Order they are available only to PS; from year 3 to 5 also to CII*. However ESMR licensees may grandfather non-cellular operations indefinitely (not required to vacate). After year 5 they become SMR channels.

* CII = "critical infrastructure industries": Includes entities not meeting the primary definition of "public safety" but which provide critical public services such as utilities, railroads, transit systems, pipelines, private ambulances, volunteer fire departments, and not-for-profit organizations that offer emergency road services such as AAA.

This is where Hansen wants to put our channels 114-120.

1 MHz
EXPANSION BAND
for 'Appendix G' markets
(see July Order, page 17)

This includes all of Phase 5
plus Madison, Taylor and
Nassau Counties in Phase 4

(there is no guard band)

Beginning of the
ESMR BAND
for 'Appendix G' markets
(see July Order, page 17)

Channels 311-314, 351-354 and 391-394 will be used for relocation of existing public safety licensees located in the Expansion Band. Existing non-cellular SMR systems are allowed to remain (grandfathered) on these channels.

For Expansion Band relocation.

For Expansion Band relocation.

This includes all of Phase 5
plus Madison, Taylor and
Nassau Counties in Phase 4
