About APCO International

Founded in 1935, the Association of Public-Safety Communications Officials (APCO) International is the world’s oldest and largest organization of public safety communications professionals and supports the largest U.S. membership base of any public safety association. APCO International provides public safety communications expertise, professional development, technical assistance, advocacy and outreach to benefit more than 35,000 members and the public. The corporate headquarters of the Association is located in Daytona Beach, Florida, with executive and government affairs offices located in Alexandria, Virginia.

Leaders in Public Safety Communications
Current Issues
What's Trending in the Public Safety Communications Industry

9-1-1 Location Accuracy
Locating wireless 9-1-1 callers presents a challenge for emergency communications centers (ECC), especially for indoor locations. APCO’s work with industry partners helped lead the FCC to adopting new rules that will ensure ECCs have the information they need to find 9-1-1 callers.

More at apcointl.org/government-relations/topics/911-location-accuracy/

Cybersecurity
As advanced technologies become integrated into public safety communications networks, new and emerging cyber risks are an increasing concern. APCO develops resources and training materials to help ECCs prevent, detect, mitigate and respond to cyber threats.

More at apcointl.org/cybersecurity/

FirstNet
The First Responder Network Authority (FirstNet) was created by the Middle Class Tax Relief and Job Creation Act of 2012. FirstNet is responsible for implementing a nationwide, interoperable public safety broadband network. APCO played a key role in leading an extensive and successful lobbying effort to secure passage of this significant legislation.

Next Generation 9-1-1
9-1-1 systems across the nation are dependable, but based upon decades-old technology. The vision of a Next Generation 9-1-1 system is for the ECC to be able to receive and process various forms of data from the public and other sources, including calls, texts, photos, videos and sensor information. APCO works to help prepare ECCs for broadband communications and ensure that NG9-1-1 and other emerging technologies are innovative, interoperable and cost-effective.

Recognizing the 9-1-1 Profession
9-1-1 professionals protect the lives of the general public and first responders every day. APCO works to ensure that public safety telecommunicators are properly recognized for their life-saving work and provided the resources they need to accomplish their missions.

Events

Annual Events Hosted by APCO International

**Annual Conference & Expo**

APCO’s Annual Conference & Expo is the premier event in public safety communications. More than 5,600 attendees and exhibitors come from across the globe to learn from industry experts, check out the latest products and network with peers.

[apco2022.org](http://apco2022.org)

**Nexus**

Nexus is designed to provide an experience unlike any other, where attendees will be immersed into a comprehensive and educational 360-degree view of the future state of emergency incident response.

[nexus.org](http://nexus.org)

**Leader's Dinner**

APCO International annually recognizes the leaders in public safety communications who have continued to advocate for our industry. Awards are presented for Leadership in Advocacy, Regulatory Service, Legislative Service and Advancing Communications Policy.

Supporting the Industry
Recognition and Assistance for the Public Safety Communications Community

Awards Program
Public Safety Communications Awards
APCO International presents awards to public safety communications personnel who have demonstrated the highest levels of personal and professional conduct and performance in the line of duty.

Technology Leadership Awards
These awards recognize communications centers that use technological advancements to benefit their center, employees and customers.

www.apcointl.org/awards

NPSTW
National Public Safety Telecommunicators A Week
This week-long event, held annually during the second week of April, honors telecommunications personnel in the public safety community.

www.npstw.org

PSFA
Public Safety Foundation of America (PSFA)
The PSFA, a 501(c)(3) charitable organization established in January 2002, provides critical funding and technical support to communications centers and local emergency response officials.

www.psfa.us

Scholarship Programs
APCO scholarships provide reimbursement to APCO Full, Associate and Agency Members for professional development and career advancement costs.

The Silent Key Scholarship Program honors individuals who, in their lifetime, contributed to the industry and association.

The Commercial Advisory Council (CAC) Scholarship Program Fund was created by the Commercial/Corporate Advisory Council as a means for its commercial members to give back to the public safety community.

Public Safety Expertise
APCO Provides These Resources and Services

Comm Center & 9-1-1 Services
APCO provides communications centers and telecommunicators with services, resources and technical experts on issues such as broadband, staffing and retention, interoperability and cybersecurity.

- APCO Consulting Services (ACS)
- APCO Project RETAINS Toolkit
- ProCHRT Toolbox
- Standards Development

Radio Frequency Management
AFC, APCO's Spectrum Management Division, provides comprehensive radio frequency coordination for communications centers. With the most experienced staff and the largest network of volunteer experts, AFC is the only organization that offers full radio frequency management services. APCO is the FCC's point of contact for interference below 512 MHz.

- Frequency Coordination
- Licensing Services
- License Management
- Engineering Services

Training and Certification
The APCO Institute provides on-site, in-house and online courses covering topics critical to public safety professionals’ development, from basic training to supervisory skills to emergency medical dispatch.

- Certified Public-Safety Executive (CPE) Program
- Registered Public-Safety Leader (RPL) Program
- Agency Training Program Certification
- Continuing Dispatch Education (CDE)
- IntelliComm (R) & Guidecards
